<b>Modulbezeichnung:</b>	<b>Bio(in)organic chemistry (CME3)</b>	<b>15 ECTS</b>
	(Bio(in)organic chemistry)	
<b>Modulverantwortliche/r:</b>	Nicolai Burzlaff	
<b>Lehrende:</b>	Andriy Mokhir, Frank Wilhelm Heinemann, Norbert Jux, Ivana Ivanovic-Burmazovic, Nicolai Burzlaff, Karsten Meyer, Carola Kryschi, Olaf Prante	
<b>Startsemester:</b> WS 2016/2017	<b>Dauer:</b> 2 Semester	<b>Turnus:</b> halbjährlich (WS+SS)
<b>Präsenzzeit:</b> 195 Std.	<b>Eigenstudium:</b> 255 Std.	<b>Sprache:</b> Englisch

---

**Lehrveranstaltungen:**
**A) Bioinorganic chemistry 1, metalloenzymes and metals in medicine (2L, 1S)**

Bioinorganic Chemistry I, Metalloenzymes and Metals in Medicine (WS 2016/2017, Vorlesung, 2 SWS, Nicolai Burzlaff)

Seminar Bioinorganic I, Bioinorganic Reaction Mechanisms (WS 2016/2017, Seminar, 1 SWS, Nicolai Burzlaff et al.)

**B) Advanced Bioinorganic Chemistry (2L)**

choice of 1 course from

Bioanorganische Chemie III (WS 2016/2017, Vorlesung, 2 SWS, Nicolai Burzlaff et al.)

Bioanorganische Chemie II, Chemie des oxidativen Stresses, Spektroskopie und Elektrochemie an Bio-anorganischen Systemen (SS 2017, Vorlesung, 2 SWS, Ivana Ivanovic-Burmazovic et al.)

Metallic Nanoparticles in Medicine (SS 2017, Vorlesung, 2 SWS, Carola Kryschi)

Modern X-ray structure determination of single crystals/Einführung i. d. Kristallstrukturbestimmung von Molekülverbindungen (WS 2016/2017, Vorlesung mit Übung, 2 SWS, Frank Wilhelm Heinemann et al.)

Modern X-ray structure determination of single crystals/Einführung i. d. Kristallstrukturbestimmung von Molekülverbindungen (SS 2017, Vorlesung mit Übung, 2 SWS, Frank Wilhelm Heinemann et al.)

**C) Special aspects in bioinorganic chemistry (1S)**

Seminar Special Aspects of Bioinorganic Chemistry (WS 2016/2017, Seminar, 1 SWS, Nicolai Burzlaff et al.)

Special aspects in bioinorganic chemistry - Seminar (SS 2017, Seminar, 1 SWS, Nicolai Burzlaff et al.)

**D) Lab course bioinorganic chemistry (7LAB)**

Attendance in lab course is compulsory!

Lab Course Bioinorganic Chemistry (WS 2016/2017, Praktikum, 7 SWS, Nicolai Burzlaff et al.)

Bioinorganic Chemistry - Lab Course (SS 2017, Praktikum, 7 SWS, Nicolai Burzlaff et al.)

**Inhalt:**

The student

- is lead to recent research goals and achievements in the field of bioinorganic chemistry.
- evaluates and assesses the basic theories, principles and concepts of bioinorganic chemistry in compliance with a research oriented master course.
- deepens his knowledge in special topics of bioinorganic chemistry that are in the research focus of the involved research groups of the department depending on its own choice.
- performs practical studies and small research projects regarding topics of the preparative, mechanistic or more biological bioinorganic chemistry in an advanced level.

**Lernziele und Kompetenzen:**

The student

- can explain and apply basic theories and principles, as well as specialized and in-depth knowledge in the fields of metalloenzymes and the interaction of metals with DNA and RNA.
- can explain, apply and reflect upon the inorganic chemistry aspects in medicinal chemistry and toxicology.
- can explain, apply and reflect upon the theories, terminology, specialities, boundaries and different schools of bioinorganic chemistry critically and in depth.
- can manage the preparation of bioinorganic models, their characterization as well as their application in mechanistic studies.

- can carry out bioinorganic research projects largely independently using a wide range of bioinorganic theories and is able to reflect upon the gained results.

---

#### **Verwendbarkeit des Moduls / Einpassung in den Musterstudienplan:**

Das Modul ist im Kontext der folgenden Studienfächer/Vertiefungsrichtungen verwendbar:

##### **[1] Chemie (Master of Science): 1-2. Semester**

(Po-Vers. 2009 | NatFak | Chemie (Master of Science) | Masterprüfung | Wahlpflichtmodul | Bioanorganische Chemie)

---

#### **Studien-/Prüfungsleistungen:**

Bioanorganische Chemie (Prüfungsnummer: 65501)

(englische Bezeichnung: Oral Examination or Examination (Klausur) on Bioinorganic Chemistry)

Prüfungsleistung, mündliche Prüfung, Dauer (in Minuten): 45

Anteil an der Berechnung der Modulnote: 100%

weitere Erläuterungen:

O45, 2 examiners (PL)

EX (SL)

EX (SL) LAB (SL)

Grading procedure: Result of the oral examination (100%)

Prüfungssprache: Englisch

Erstablegung: SS 2017, 1. Wdh.: WS 2017/2018

1. Prüfer: Nicolai Burzlaff

---

#### **Bemerkungen:**

Module compatibility: M. Sc. Chemie/ M. Sc. Molecular Science (Elective Module)
