**Organisatorisches:**

- Preliminary meeting scheduled for Mo, 16 Oct 2017, for both seminars, first presentations expected at Mo, 30 Oct 2017.
- This course will be held in English, i.e. seminar talks are expected to be given in English, too. This also applies to the discussion during and after the presentations.
- Note that, due to the large number of participants, the seminar is split into two parts, where participation in one part is compulsory and participation in both parts is invited and encouraged.
- Further information is available on StudON where also the list of topics will be made available. Participants registering before the list of topics is available will receive a request by email to select their favourite topics once this list is visible on StudON. Registration is via StudON.
