**Modulbezeichnung:** **Laborpraktikum Image and Video Compression (PrIVC)** **2.5 ECTS**  
 (Lab Course Image and Video Compression)

Modulverantwortliche/r: Christian Herglotz

Lehrende: Kristian Fischer

---

Startsemester: SS 2022

Dauer: 1 Semester

Turnus: jährlich (SS)

Präsenzzeit: 45 Std.

Eigenstudium: 30 Std.

Sprache: Englisch

---

### Lehrveranstaltungen:

The content of this lab course is closely connected to the lecture Image and Video Compression (IVC) (Link)

Laborpraktikum Image and Video Compression (SS 2022, Praktikum, 3 SWS, Anwesenheitspflicht, Christian Herglotz et al.)

---

### Empfohlene Voraussetzungen:

Das Praktikum Image and Video Compression wendet sich an Studierende aus den Studiengängen EEI, IuK und CE, die die Vorlesung Bild- und Videocodierung (Image and Video Coding) im gleichen Semester hören oder bereits gehört haben.

The lab course Image and Video Compression is suited for students from the field of study in EEI, IuK, WIng, ASC, CME, and CE, who participate in the lecture Image and Video Compression in the current summer semester or who have already attended the lecture.

---

### Inhalt:

- Einführung in die Programmierumgebung MATLAB
- Realisierung der Verarbeitungsblöcke von Videocodern
- Aufbau eines Videocodecs und optionale Erweiterungen
- Durchführung eines subjektiven Vergleichs verschiedener Videocodecs
- Präsentation und kritische Beurteilung der Ergebnisse

#### Content

- Introduction to MATLAB
- Implementation of the single video codec processing blocks
- Integration into the video codec pipeline, tests, and extensions
- Participation in a subjective video test of selected implementations
- Presentation and discussion of the achieved results.

### Lernziele und Kompetenzen:

Die Studierenden

- erzeugen ein funktionsfähiges Programmsystem mit der Programmierumgebung MATLAB,
- beurteilen die Funktionsblöcke von Video-Codern,
- gestalten ihren eigenen Videocodec und entwickeln dazu von ihnen selbst gewählte optionale Erweiterungen,
- bewerten die von ihnen realisierten Videocodecs durch einen subjektiven Vergleich,
- reflektieren den Lernprozess während des Praktikums.

#### Learning Targets and Skills:

The students

- create a fully functional program using the programming environment MATLAB,
- evaluate the processing blocks of a typical video codec,
- design their own video codec and enhance it by extensions of their choice,
- evaluate their implemented video codecs in a subjective comparison,
- reflect upon the methods conveyed during the laboratory.

### Literatur:

Das Skriptum Praktikum Image and Video Compression wird in der Einführungsveranstaltung ausgegeben.

The lab course notes will be distributed during the introductory meeting.

---

### Studien-/Prüfungsleistungen:

Laborpraktikum Image and Video Compression (Prüfungsnummer: 76511)

Studienleistung, Praktikumsleistung

weitere Erläuterungen:

The lab course comprises ten sessions of four hours plus two sessions of two hours, which include 7 work packages, a subjective test, and a final presentation. Each work package is described in the lab course notes and consists of one or two sessions, the dates for which will be announced before the registration opens. Besides, each work package requires a preparation in written form and will be checked and reviewed (pass/fail) before the start of each session. During each of the ten mandatory lab sessions, the students are required to work on programming tasks, which will be reviewed at the end of each session (pass/fail). After these ten programming sessions, a working video codec has to be handed in. Besides, the students have to participate a subjective test, where the codec results are evaluated. In the last session, each video codec has to be presented by the students. A certificate confirming the successful participation in the laboratory is received if all work packages have been sufficiently prepared and implemented, if the results of all work packages have been combined into a functional and running video codec which is suitable for subjective testing, if the subjective video test has been participated in, and if the final video codec has been presented during the final presentation.

Prüfungssprache: Englisch

Erstablingung: SS 2022, 1. Wdh.: WS 2022/2023

1. Prüfer: André Kaup
