
Modulbezeichnung: Materials and Structure (MS) **5 ECTS**
(Materials and Structure)

Modulverantwortliche/r: Erdmann Spiecker, Johannes Will
Lehrende: Erdmann Spiecker

| | | |
|-----------------------------|------------------------|-----------------------|
| Startsemester: WS 2022/2023 | Dauer: 1 Semester | Turnus: jährlich (WS) |
| Präsenzzeit: 30 Std. | Eigenstudium: 120 Std. | Sprache: Englisch |

Lehrveranstaltungen:

Materials and Structure (Werkstoffe und ihre Struktur) (WS 2022/2023, Vorlesung, 2 SWS, Johannes Will et al.)

Inhalt:

The content of the module gives an overview of different fields of materials science and engineering. The following topics are included in the module:

- atomic structure and interatomic bonding
- structure of crystalline solids
- structure determination by X-ray diffraction
- imperfections in solids
- microscopic characterization of crystal defects
- mechanical properties of metals
- dislocations and strengthening mechanisms
- phase diagrams of binary alloys
- phase diagrams of metals: development of microstructure
- kinetics of phase transformations
- structure and properties of ceramics

Lernziele und Kompetenzen:

The course enables the students

- to classify the different types of bonding that occur in materials
- to understand the relationship between bonding, structure and fundamental materials properties
- to describe crystalline materials with basic concepts of crystallography
- to classify crystal defects with respect to their dimensionality
- to describe the importance of dislocations and interfaces for the mechanical properties of metals
- to understand the development of microstructure based on phase diagrams and the kinetics of phase transformation
- to describe basic crystal structures of ceramics

The course forms the basis for advanced lectures in the field of materials science.

Verwendbarkeit des Moduls / Einpassung in den Musterstudienplan:

Das Modul ist im Kontext der folgenden Studienfächer/Vertiefungsrichtungen verwendbar:

[1] **Advanced Materials and Processes (Master of Science)**

(Po-Vers. 2019w | TechFak | Advanced Materials and Processes (Master of Science) | Gesamtkonto | Grundlagenfächer | Materials and Structure)

Studien-/Prüfungsleistungen:

Materials and Structure (Prüfungsnummer: 1731)

(englische Bezeichnung: Materials and Structure)

Studienleistung, Klausur, Dauer (in Minuten): 90 Prüfungssprache: Englisch

Erstablingung: WS 2022/2023, 1. Wdh.: SS 2023

1. Prüfer: Erdmann Spiecker
