Modulbezeichnung:	**Machine Learning for Engineers II: Advanced Methods (MLE2)** (Machine Learning for Engineers II: Advanced Methods)	**2.5 ECTS**
Modulverantwortliche/r:	Björn Eskofier	
Lehrende:	Nico Hanenkamp, Björn Eskofier, Jörg Franke	

Startsemester: WS 2022/2023	Dauer: 1 Semester	Turnus: halbjährlich (WS+SS)
Präsenzzeit: k.A. Std.	Eigenstudium: 75 Std.	Sprache: Englisch

Lehrveranstaltungen:

Machine Learning for Engineers II: Advanced Methods (WS 2022/2023, Vorlesung, Björn Eskofier et al.)

Machine Learning for Engineers; Advanced Methods and Tools (Vorlesung mit Übung, Online)

Advanced Methods and Tools

Es wird empfohlen, folgende Module zu absolvieren, bevor dieses Modul belegt wird:

Machine Learning for Engineers I: Introduction to Methods and Tools

Inhalt:

This course focuses on various aspects of Deep Learning. Theoretical foundations and general concepts are introduced in the first part, while the second part focuses on specific networks used in image analysis as well as time-series analysis, two common tasks in engineering applications. The list of topics covered includes:

- Network optimization
- Regularization
- Convolutional neural networks
- Reccurent neural networks

In the integrated lab sessions, the students will tackle an image classification problem as well as a time-series regression problem using industrial datasets.

Lernziele und Kompetenzen:

Fachkompetenz

Wissen

Students are able to recapitulate different machine learning methods and algorithms.

Anwenden

Students are able to choose and implement a suited deep learning algorithm for a given problem based on the type of data and the general learning task.

Studien-/Prüfungsleistungen:

Machine Learning for Engineers II: Advanced Methods (Prüfungsnummer: 50681)
(englische Bezeichnung: Machine Learning for Engineers II: Advanced Methods)

Prüfungsleistung, elektronische Prüfung, Dauer (in Minuten): 60
Anteil an der Berechnung der Modulnote: 100%
weitere Erläuterungen:
Digital Open Book Exam via StudOn
Prüfungssprache: Englisch

Erstablegung: WS 2022/2023, 1. Wdh.: SS 2023
1. Prüfer: Björn Eskofier
